ACR

THE WIDEST AGE AND WEIGHT RANGE PAEDIATRIC HARNESS IN THE WORLD

The ACR (Ambulance Child Restraint) has been used worldwide for 20 years, providing a secure and safe means of patient transfer. Designed to securely fasten paediatrics onto an ambulance stretcher, this innovative, flexible harness system is crash tested to BS EN 1789 and easily attaches to any make or model of ambulance stretcher.

Accommodates weight range of 4lbs - 100lbs.

Integrated wash bag for each harness.

Supplied as a set of four colour coded harnesses.

Supplied with a kit bag for storage.

Exclusively distributed in the US by QuadMed, Inc.
